- Local Cork sandstone and limestone
- Granite, quartzite and reclaimed stone
- Cut, dressed and random rubble finishes
- Stone matching to specification and sample panels agreed before commencement

EXPERIENCE

M28 Ringaskiddy Motorway

600 m²

Sorensen Civil Engineering Ltd · Ringaskiddy, Co. Cork · May to July 2026 · 9 weeks on site

Random rubble limestone boundary and retaining walls to the motorway alignment, with upright coping dressed on three faces. Completed within programme on a live civil engineering site.

Celtic Interconnector

480 m²

Sorensen Civil Engineering Ltd · Carrigtwohill, Co. Cork · completed 15 July 2026

Reinstatement of stone boundary walls along the cable route, rebuilt following their removal for installation works.

Large-Scale Retaining Wall

CURRENTLY ON SITE

650 m²

McGinty & O'Shea Ltd · Water-Rock, Midleton, Co. Cork · commenced 20 July 2026, ongoing

Stone facing to a large retaining wall, delivered by our own crew to the main contractor's programme.

Works completed before July 2026 were delivered by the same director and crew trading prior to incorporation. Referees and photographic records are available for all projects listed.

Track record: over 1,700 m² of natural stone delivered on civil and infrastructure contracts for main contractors in County Cork, including motorway, national grid and retaining wall structures.

INSURANCE

Public / Products Liability	€6,500,000 any one claim · Accelerant Insurance Europe SA · expiry 13 October 2026
Employers Liability	€13,000,000 any one claim · Accelerant Insurance Europe SA · expiry 13 October 2026
Broker	Cuffe & Company (Insurance) Ltd · underwritten via iSure Underwriting
Territorial limits	Republic of Ireland, Great Britain, Northern Ireland, Channel Islands, Isle of Man
Certificates	Current certificates of insurance available on request

TAX & REGISTRATION

Relevant Contracts Tax	Registered on ROS as principal contractor for own subcontractors and as subcontractor to main contractors.
CRO status	Private company limited by shares (LTD), registration 820510 · status Normal
Industry registration	Registration to be completed under the new statutory Construction Industry Register (CIRI) as the scheme opens to applicants during 2026

HEALTH & SAFETY

Safety Statement	Current company Safety Statement in place, reviewed annually
Risk assessments	Task-specific RAMS issued per project prior to commencement
Operative certification	All operatives hold a current Safe Pass registration card
Additional training	Manual Handling certification held by all operatives
Accident record	Nil reportable incidents in the last three years

RESOURCES

Direct operatives	3 — working director and two masons, employed directly
Regular subcontract crews	Three or more established crews available for additional capacity at short notice
Combined experience	Director holds 23+ years hands-on natural stone masonry experience
Plant and equipment	Self-sufficient for transport, mixing, cutting and hand tools. Rates are quoted on the basis that telehandlers, access equipment, scaffolding, temporary power and water, and site welfare are provided by the main contractor. These items are excluded unless agreed otherwise in writing.
Materials	Fix only. Stone is supplied by the client or main contractor unless agreed otherwise in writing. We advise on selection and matching, and agree a sample panel before work begins.
Operating area	County Cork and surrounding counties
Programme & rates	Output and rates are priced per scheme and vary with stone type, coursing and the number of worked faces. Programme durations are confirmed on review of drawings and specification.
